Cloud Solutions for the modern legal firm

Cognito In The Cloud - E-Office

Since 1991 the Cognito Legal Software suite through continual development, has expanded from its original Legal Accounting Package through to the more complex Legal Case Management and Legal Practice Management Solutions that are now required by the modern forward thinking firm.

Cognito now boasts a variety of Legal Software Solutions, available as a fully managed cloud service to the legal sector with HIP production, Online Case Tracking facilities, Electronic Post Room, CRM and Marketing Solutions are all readily available.

Cognito has been developing and supplying specialist legal software to some of the UK's leading legal practices for nearly 20 years and in this time it has built up a vast wealth of knowledge both in its development and management teams which filters down into the support infrastructure ensuring the quality that you receive is always consistent.

In the last Law Society Software Solutions Guide (2009), Cognito impressively received five First Place Listings in the main categories, beating all other legal software providers.

Law Society Software Solutions Guide Results 2009

- 1st For Overall Satisfaction with Practice Management Solution
- 1st For Ongoing Support to our Clients
- 1st For Support
- 1st For Services
- 1st For Value
